OBJECTIVE

I have completed bachelor of computer science student, pursuing a degree in computer science at SREI's Samarth College of Computer Science, Belhe. Looking for an opportunity to work in an organization that provides me with ample opportunities to enhance my skills and knowledge along with contributing to the growth of the organization.

PROJECT

Travel and Tours management | *HTML, CSS, JS, PHP* | [Link](#)

- The travel and tourism website involves the travel and stay of non-residents, facilitated by travel management systems that offer reservation services and ensure compliance with travel policies. These systems streamline booking processes, optimize costs, and adhere to company regulations.

Recipe Management System | *Angular Java* | [Link](#)

- The Cooking Recipe Management System project aims to create an accessible website featuring diverse recipes from various regions and countries. This website requires no username or password, allowing everyone to freely explore and experiment with new cooking ideas.

TECHNICAL SKILLS

Languages/Database: Core Java, Python, SQL

Frameworks: Hibernate, Springboot, JDBC

Web Technologies: HTML, CSS, JS, PHP

Software & Tools: Windows, Git, Github, IDE
